

# EXEDE USER GUIDE

**Step One** - Go to [www.gctel.com](http://www.gctel.com) and click on **Services > Exede**.

The screenshot shows the Gartonville website header with navigation links: Home, Webmail, Spam Filter Login, eBill Login, Phone Directory, and social media icons for Facebook and Twitter. A dropdown menu is open under 'Services', listing: GC Voice, GC Internet, Exede (circled in red), GC Digital Television, Brandon Communications, and P&H Services. Below the menu is a large orange banner with the text 'One Month Free {Any Speed High-Speed Internet}' and a button that says 'CLICK HERE TO LEARN MORE' with an arrow pointing to the right.

## Step Two - Select Login

The screenshot shows the Gardonville Cooperative Telephone Association website. The navigation menu includes Home, Webmail, Spam Filter Login, eBill Login, Phone Directory, and a search bar. The main content area features a sidebar with links for Exede, About Exede, FAQs, Packages, and Login (circled in red). The main content area has two sections: "WHAT IS EXEDE?" and "HERE'S HOW IT WORKS".

**Exede**  
About Exede

Packages  
**Login**

**WHAT IS EXEDE?**  
Exede Internet by ViaSat is the next generation of satellite broadband service. It brings together the highest capacity satellite in the world, state-of-the-art equipment and breakthrough web acceleration technology. ViaSat's new satellite, ViaSat-1, represents the most significant capacity leap in the history of satellite technology. ViaSat has also built a brand new, state-of-the-art network here on the ground. The in home equipment is all new too, including a brand new modem with built-in web acceleration technology.

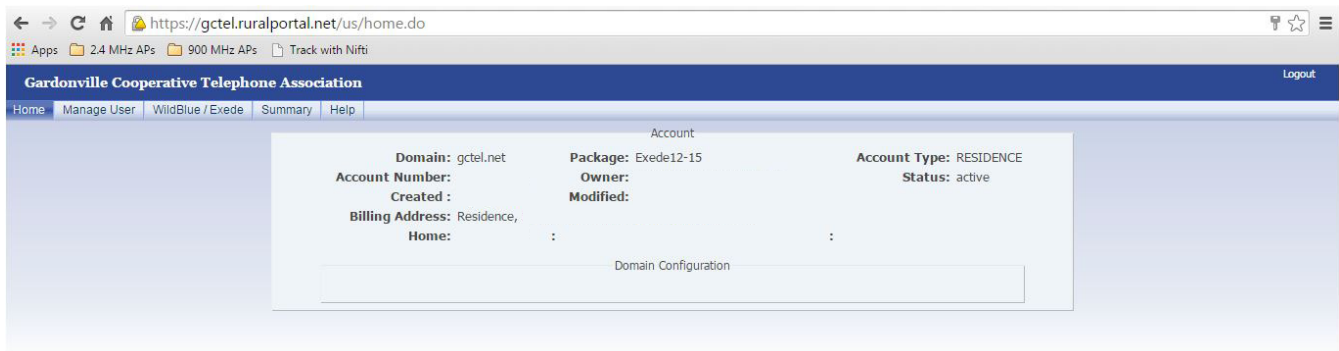

**HERE'S HOW IT WORKS**  
Everything you do online involves the transfer of data. Some online activities, like streaming video and downloading movies or software, require a lot of data while other activities, like email and web browsing, use much less. The more you do online, the larger your data plan should be. No matter which Exede plan you choose, it comes with the fastest speed available in your area. Now you can choose the plan that's right for you based on how you use the Internet.

## Step Three - Enter in your login information. This will be your @gctel.net email address.

The screenshot shows a login form with a blue background. The word "Login" is displayed in large, light blue letters. Below it, there are two input fields: "User Name" and "Password". A "Login" button is located at the bottom right of the form.

## Step Four - You are now logged in and can manage your account.

The screenshot shows the user management page in the Gardonville portal. The page title is "Gardonville Cooperative Telephone Association" and the URL is "https://gctel.ruralportal.net/us/home.do". The page displays account information for a user.
